After School

Homework Help and After School Assistance Program

What We Provide

L-E-A-P helps take the chore out of homework for students and parents. Sometimes some students need individualized attention and intensive tutoring in specific areas of study.

Where do you turn for help?

Join our L-E-A-P program ASAP and rest assured your child will get assignments completed.

- L - Learning
- E - Enrichment
- A - Advancement
- P - Preparation

"Nothing will work unless you do." ~ Maya Angelou

(ASAP) After School Assistance Programs

Inner Changes' L-E-A-P and ASAP programs are the after school advantage to guarantee student learning success. We help students master what they have learned so they can use their knowledge to advance in their studies. We offer "Homework Help," where students get assistance with their homework at an affordable price.

L-E-A-P (ASAP) offers a positive learning environment and experience for our students. We help students raise their self-esteem and self-confidence and engage positive thinking that is essential to their learning success. We choose the type of instruction, learning material and learning environment that will allow the student to absorb information in a way that matches their learning style so they learn more rapidly.

ASAP is for students who are struggling with a specific area of study. Specific tutoring is in math, reading and writing. Our dynamic tutoring staff is trained to recognize the individual needs of each student and engage and motivate them to learn.

We also offer a Test Prep course to help students improve their long-term memory by sharpening their note taking, test taking and study skills. Saturdays' Math Wiz classes are offered for students who want to sharpen their math skills.

Inner Changes' L-E-A-P program and ASAP programs have built-in flexibility to adapt, change, and strengthen as educational standards and teaching methods change. We make learning fun and challenging for students because we inspire them to want to learn while enhancing their academic success.
